

# Introducing Alex

## The first software robot for the collection industry

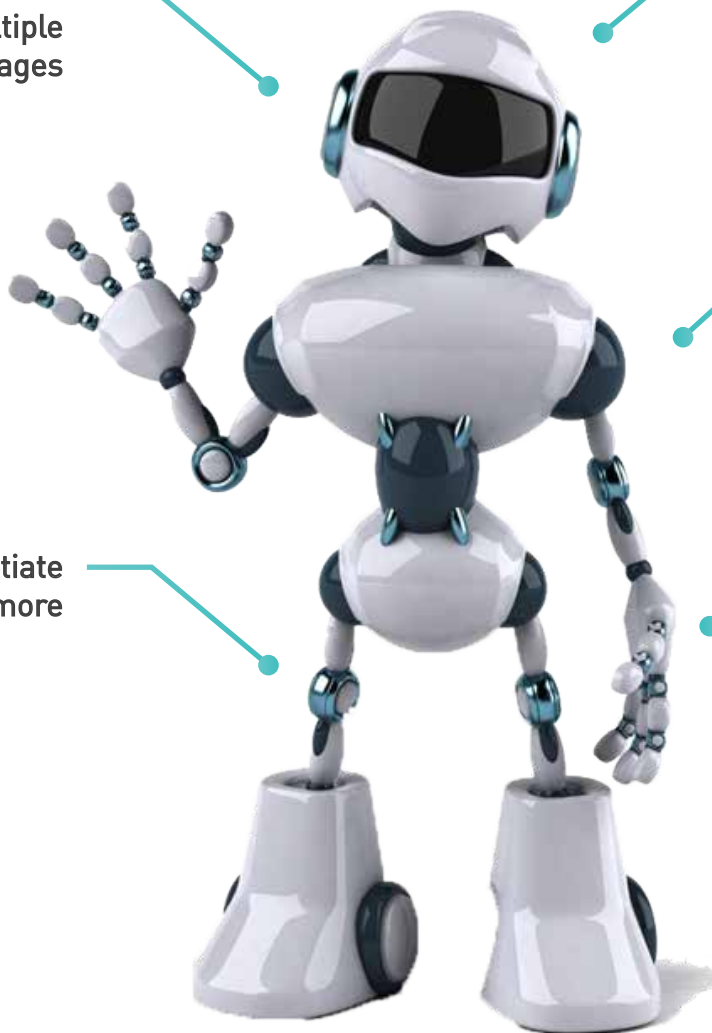

I can speak and understand multiple languages

I can handle returned calls and web contacts from right and wrong parties

I will handle inquiries, bankruptcies and disputes

I will negotiate payments and more

I work 24/7/365 for no commission

From the company that gave you the first and only intelligent collection software platform, comes a revolutionary, game-changing innovation that addresses one of today's most pressing problems - Finding and retaining experienced collectors.
