

Duplication Options – Allows you to duplicate system control setups from one company to a different company

• Important – If you already have the selected system controls you are trying to duplicate, partially setup in the company your transferring to, all of the new settings may not duplicate. So do not setup the system controls in the new company until after you have completed the duplication from this company.

```
Company: 99                                MENU: SYSC03                                Date : 12/28/10
                                           -System Control Menu 3-                    Time : 16:53:31
